Geranium Essential Oil Safety Information

Tisserand and Young caution that a drug interaction may occur if using drugs metabolized by CYP2B6. They indicate that the Geranium Oil possesses a low risk of skin sensitization and recommend a dermal maximum of 17.5%.

*Reading Tisserand and Young's full profile is recommended. [Robert Tisserand and Rodney Young, *Essential Oil Safety (Second Edition. United Kingdom: Churchill Livingstone Elsevier, 2014)*, 293.]*
